

*Collected Papers of Prof. Tanimura of Osaka University.*

Volume of 636 pages issued by the Alumni Union of the Department of Dermatology and Urology of the University of Osaka School of Medicine, and dedicated to Prof. Tanimura in celebration of his 70th birthday. This great Japanese scientist was born in 1891 and retired in 1955 and is now an Honorary Professor of Osaka University. His main interests have been in dermatology, dermato-urology, microbiology, and he has given a lot of attention to leprosy and murine leprosy. The volume is beautifully produced and printed, and it is extremely valuable to have all his scientific papers in one book, and printed in English, and some in German. There are 12 papers on tuberculosis (9 in German and 3 in English) and 11 on leprosy and murine leprosy (all in English). There are also 16 papers on miscellaneous subjects (3 in German and 13 in English), and 10 papers contributed by members of the Alumni Union (all in English).

The papers on leprosy are:

1. TANIMURA, T. and NISHIMURA, S. *Studies on the pathology of murine leprosy.*

2. TANIMURA, T. and NISHIMURA, S. *A Review of recent animal inoculation studies with human and murine leprosy.*
3. TANIMURA, T., NISHIMURA, S., and TANIMURA, Y. *Studies on the immunology of murine leprosy.*
