

## Letter to the Editor

May I draw the attention of your readers to a discrepancy in the published version of my paper entitled "The Nasal Mucus in Leprosy", which appeared in *Leprosy Review* (1973) 44, 33-35?

In the 2nd paragraph, page 34, the phrase "(and unconfirmed histologically)" should be amended to read as follows:

"(and confirmed histologically in 7 representative patients out of 41)".

J. C. PEDLEY

*Leprosy Review* regrets that a misleading impression may have been given in the condensed version of Dr Pedley's paper.
