

Editorial Note

Dr H W Wheate, OBE joins the Editorial Board of Leprosy Review.

It is with the greatest of pleasure that we welcome Dr H W Wheate as a new member of the Editorial Board of *Leprosy Review*. Following many years as leprosy specialist in Tanzania and later in the All-Africa Leprosy and Rehabilitation Training Centre (ALERT) in Addis Ababa, Dr Wheate needs no introduction in the world of leprosy. At a stage in the history of this subject when teaching, training and the methodology of leprosy control are becoming of increasing importance, we look forward to the opportunity of benefitting from his wide experience and wisdom.
