

News and Notes

Editorial Note: Leprosy Control and Field Work; Teaching Materials and Services, News and Notes

Due to the extraordinary number of articles awaiting publication, we have taken the decision to use various blank spaces and pages in the main body of the journal for items normally printed separately, under the above headings. We apologize for any adverse effect this may have on reprints and for any inconvenience to our readers in locating information on the items concerned. We take this opportunity to draw attention to important information from WHO on AIDS and HIV infection, printed in full on pages 207-8 in this issue. *Editor.*

Correction

We apologize most sincerely to Dr C K Rao, Leprosy Division, Directorate of Health Services, New Delhi, for an error at the foot of page 196 in Volume **58**, Number 2, 1987. The first author of the Editorial referred to should of course read Dr C K Rao.—*Editor.*

The Wellcome Tropical Institute, London

A completely revised exhibit on leprosy (pictorial demonstration, with text) is now on display in the Museum and it is possible to order copies of it for use abroad. It is accompanied by a work book and manual, with the intention that it should be a stimulating tool for learning and discussion, rather than merely a passive exhibit. Apply to Dr Diane Macauley, The Wellcome Tropical Institute, 200 Euston Road, London NW1 2BQ.

The Heiser Program for Research in Leprosy

Beginning *postdoctoral research fellowships*, *research grants*, and *visiting research awards* available in amounts up to \$19,000 per year, plus other allowances. Applicants should have MD, PhD, or an equivalent degree. Applications by 1 February 1988, for awards to be activated June to December 1988. For information, write to: The Heiser Program, 450 East 63rd Street, New York, NY 10021.

Clinical and Experimental Dermatology

Formerly Transactions of the St John's Hospital Dermatological Society

Edited by **Dr W.A.D. Griffiths** *St John's Hospital for Diseases of the Skin, Lisle Street, Leicester Square, London WC2H 7BJ, UK*

Clinical and Experimental Dermatology publishes original articles covering all aspects of the normal biology of the skin and clinical and experimental dermatology. Regular features include the full texts of bi-annual orations by speakers of international renown, symposia on topics of major dermatological interest, and Society clinical proceedings. Invited review articles, book reviews and correspondence are published occasionally. The journal is the official organ of the St John's Hospital Dermatological Society, but it attracts contributions from all countries and its circulation is equally international.

Subscription Information

Clinical and Experimental Dermatology is published bi-monthly. Subscription rates for 1987 are £86.00 (UK), \$186.00 (USA, Canada & Japan), £103.50 (elsewhere) post free. Subscriptions and specimen copies are available from the publisher at the address below.
